## CMP Network SA – Membership Types & Benefits

<p><b>1. Press office service</b></p> <p>CMPs have busy time schedules that make it challenging to undertake ongoing marketing or ensure the industry activities are undertaken as required for recertification. Up to this time the Network has promoted CMPs and a great deal of additional ‘reach’ has proven successful for CMPS. Higher visibility will be assured by the Network in providing Gold CMP members a communication vehicle whereby the CMP will be:</p> <ul style="list-style-type: none"> <li>- prompted for newsworthy input specifically to enhance the knowledge-base on best or better practice</li> <li>- assured greater industry market-place prominence</li> </ul> <p>Assistance in drafting the input for approval and distribution to the media will also be undertaken. Articles and media releases will be:</p> <ul style="list-style-type: none"> <li>..posted to the CMP Network’s website, copied to the CIC Washington-based HQ for further distribution;</li> <li>..logged in the Network’s article register for inclusion within the recertification requirements.</li> </ul>	<p><b>4. CPD credit accumulator sessions &amp; pertinent notifications</b></p> <p>CPD (Continuing Professional Development) is an essential CMP component for both current CMPs requiring recertification each five years as well as potential &amp; accepted CMP candidates. Other Industry individuals and bursary students requiring to be tested against the CMP International standard’s ten Domains, 30 Skills and 106 Sub-skills for career development purposes may register to participate in one or more of the notified sessions. Approved sessions will indicate the compliance with the CMPIS including the specific domain, skill and sub-skill.</p> <p>MICE Academy in-depth sessions aligned to the CMPIS as well as CMP focus group sessions will be held on a regular basis and a variety of externally-arranged briefings will also provide proof of participation.</p> <p>Over and above the CPD credit criteria - regular pertinent notifications will be provided.</p>
<p><b>2. CPD schedule of clock hours</b></p> <p>As a Gold CMP member – a personal roster / schedule of accumulated clock hour credits will be maintained. Proof of claims may be logged with the Network on an ongoing basis as part of the member’s benefits. Ongoing reminders of the amount of authentic clock hours to date will allow CMPs to be mindful of both timely re-certification deadlines as well as the updating of Personal Professional Profiles. CPD (Continuing Professional Development) is becoming significant in order to ensure meeting/event managers are at the cutting edge of the latest developments and indicate lifelong learning as mandatory rather than optional.</p>	<p><b>5. CMP blue ribbon badge ID availability</b></p> <p>CMPs may be specifically identified at Focus Groups.</p> <p>Equally, additional CMP badge ribbons will be available – on request - for other group gatherings that CMPs may individually attend.</p>
<p><b>3. Reference verification system</b></p> <p>CMPs may include an independent reference check on proposals and collateral material. The enquirer is welcome to email: <a href="mailto:info@cmpnetworksa.co.za">info@cmpnetworksa.co.za</a> Subject line ‘ Confidential CMP Verification Required on (CMPs Name) ’</p> <p>Verification will be provided with (1) confirmation of the CMPs status and (2) details of the manner and method on which a CMP status is attained. EMEA CMPs are listed on the CMP Network website together with their specific re-certification date.</p>	<p><b>6. RFPs &amp; Recruitment</b></p> <p><b>6.1.</b>The Network promotes the selection of CMPs as a first choice and hence by mid-2012 several opportunities for RFPs via the Network are likely. RFPs will be advised to CMPs with a Gold member time advantage.</p> <p><b>6.2.</b> A confidential career opportunities and vacancies service for and by CMPs will be posted to the CMP Website and advised to members on a regular basis as part of the notification service.</p>
